ANNUAL INDEX

SUBJECT INDEX

A

Abdominal pain
Abdominal pain: Triaging the elderly. 5/15:72-99
Abuse
When you suspect child abuse. 2/15:22-54
Elder mistreatment: A call for help. 6/15:93-130
Domestic violence: It can happen to anyone. 11/15:63-95
Women abused as children. 11/15:169-180
AIDS
When the AIDS patient crashes. 1/15:140-158
A guide to underground AIDS therapies. 8/15:53-70
The HIV-infected patient: Early-stage care. 9/15:20-61
HIV therapy: More choices, more questions. 9/15:65-91
TB and HIV: A deadly synergy. 9/15:92-114
HIV: What's different for women? 9/15:119-147
Avoiding drug interactions in HIV disease. 9/15:152-165
Pulmonary opportunistic infections. 9/30:24-47
Dealing with diarrhea in HIV disease. 9/30:49-74
How to recognize AIDS-related cancers. 9/30:77-96
The spectrum of HIV infections. 9/30:99-128
Alcoholism
Managing alcohol abuse in primary care. 3/15:102-107
Office detox for alcohol abuse. 3/15:108-114
Anemia
How far to go in the anemia workup. 8/15:76-94
Anuria
Treating acute anuria or oliguria. 1/15:162-181
Arthritis
Hot joint: Narrowing the differential. 5/15:100-123

B

Biotechnology
Gene therapy: Sci-fi no longer. 6/15:24-42
DNA: A Diagnostic New Age. 7/15:75-82
Recombinant drugs: A promise realized. 8/15:99-109

C

Cancer
A rational approach to ovarian masses. 1/15:50-74
Clinical applications of tumor markers. 3/30:61-85
Understanding the Bethesda System. 4/30:65-80
Breast cancer: Vigilance, not panic. 11/15:135-164
Ovarian cancer: Who needs screening? 12/15:27-47
Cardiology
Heart surgery: Primary care follow-up. 1/15:95-134
Signal-averaged ECG: Why? Who? When? 1/30:73-80
Women and heart disease. 3/15:71-73
When regurgitant valves need surgery. 4/30:12-26
Chest pain: The first six hours. 5/15:24-51
Who really needs a cardiac stress test? 6/15:73-88
Managing angina and concomitant disease. 7/15:45-72
Predischarge decisions in acute MI. 10/15:69-98
Postdischarge decisions in acute MI. 10/30:25-51
What's unique about CHD in women? 11/15:21-61
Carpal tunnel syndrome
Carpal tunnel syndrome: The workup. 4/15:97-108
Carpal tunnel syndrome: Management techniques. 4/15:111-126
Cholesterol
Philosophies of cholesterol testing. 1/30:53-68
Equipment choices. 3/15:82-95
Controlling preanalytic factors. 3/15:96-101
Clinical interview case & comment
Choking to death. 2/15:174-183
What's my hemoglobin? 2/15:183-186
It all began in 1949. 3/15:195-196
The treacherous K-Y jelly disaster. 3/15:196
Not fit for a human being. 4/30:82
"It's hard not to smoke." 7/15:137-138
A Boulder knee or an older knee? 10/30:90-92
Clinical practice guidelines
Assessing risk and preventing pressure ulcers. 4/15:36-66
Conjunctivitis
Conjunctivitis: Update on diagnosis and treatment. 5/30:22-46
Counseling
How to find time for counseling. 3/15:126-133
Behavior change: How to get patients involved. 3/15:134-139
A marketing plan for patient education and counseling. 3/15:143-144
20 questions for pediatric evaluation. 3/15:146-162
In-office counseling on a shrinking budget of time. 3/15:168-181
Setting priorities: A food pattern progress chart. 3/15:182-183

D

Dementia
10 basic rules for managing dementia. 1/15:79-92
Streamlining the dementia workup. 3/30:12
Diabetes mellitus
Strategies for easing diabetic pain. 12/15:48-72
Drug complications case & comment
A deepening depression. 8/15:132-133
The diagnosis was crystal clear. 9/15:175-178
Drugs
Portable medicine pumps in primary care. 2/15:91-115
Metronidazole: Versatile antimicrobial. 3/30:137-148
Beta-blockers: Beyond cardiology. 6/15:47-70
Beta-blockers: When, which one, and why. 8/15:21-48
The new macrolides: Beyond erythromycin. 12/15:125-136

E

Editorials, guest
Trauma is your business. 5/15:11-14
HIV disease: Are we going anywhere? 9/15:13
Better *primary* care for women: The numbers show the need. 11/15: 10-11
ECG case & comment
KO'd by his ECG? 12/15:139
Exercise
Writing the exercise prescription. 2/28:104-117
At-home equipment: What to recommend. 2/28:118-120

F

Fatigue
When fatigue is the major complaint. 10/15:157-167
Flowcharts
Diagnosing ovarian cysts. 1/15:66-67
Treating common AIDS-related crises. 1/15:156-157
Initial management of anuria and oliguria. 1/15:172-173
Managing nosocomial infections. 2/15:136-137
Customizing the presurgical workup. 2/15:164-165
Managing common illnesses during pregnancy. 3/30:98-99
Managing chronic illness in pregnancy. 4/15:88-89
Managing carpal tunnel syndrome. 4/15:124-125
Preventing and managing osteoporosis. 4/30:48-49
Diagnosing abdominal pain in the elderly. 5/15:84-85
Diagnosing and treating conjunctivitis. 5/30:36-37
Diagnostic stress testing. 6/15:86-87
Managing pelvic inflammatory disease. 6/15:198-199
Medical management of prostate symptoms. 7/15:26-27
Treating angina and concomitant disease. 7/15:64-65
Managing depression in the elderly. 7/15:132-133
Workup for anemia. 8/15:92-93
Tuberculosis in HIV disease. 9/15:112-113
Pulmonary opportunistic infections in HIV. 9/30:40-41

Managing diarrhea in HIV disease. 9/30:66-67
Managing AIDS-related malignancies. 9/30:88-89
Managing extrapulmonary infections in AIDS. 9/30:120-121
Diagnosing Crohn's disease. 10/15:48-49
Predischarge post-MI management. 10/15:90
Managing syphilis. 10/15:142-143
A workup for fatigue. 10/15:162-163
Managing MI after discharge. 10/30:38-39
Treating Crohn's disease. 10/30:74-75
Diagnosing CHD in women. 11/15:44
Fine-tuning hormone replacement therapy. 11/15:124-125
Diagnosing breast cancer. 11/15:154-155
Dealing with diverticular disease. 11/30:34-35
Managing pain in diabetic neuropathy. 12/15:70-71
Fractures
Fast splinting techniques for fractures. 6/15:148-180

G

Gastroenterology
How to tell it's Crohn's disease. 10/15:30-51
Crohn's disease: Choosing the right therapy. 10/30:52-76
Don't overtreat diverticular disease. 11/30:12-44
Gastroenterology case & comment
Traveler's diarrhea that just won't stop. 2/15:189
A diagnostic dilemma: Dehydrating diarrhea. 4/15:171-172
What's causing pyrosis, pulmonary symptoms? 6/15:211-212

H

Headache
Severe headache: Initial measures. 5/15:124-143
Heatstroke
Heatstroke: Be ready for summer. 5/15:52-62
Hypertension case & comment
Syncope without hypotension. 5/30:91
Acute heart failure of unknown origin. 10/15:177-178

I

Infectious disease case & comment
Radiating lower abdominal pain. 1/15:185-200
Diarrhea in an HIV-positive patient. 1/30:96-99
Pneumonia in a nursing home. 1/30:100
Papules and polyarthritis in an IV drug user. 2/15:172-173
A violet nodule on an AIDS patient's wrist. 3/30:152
A hunter with a swollen node. 5/30:78-88
Fever, chills, and aches in a traveler. 5/30:88-90
Fever and chills after an African safari. 7/15:140-144
Urosepsis: A preventable death? 8/15:126-130
Mouth ulcers and immunosuppression. 8/15:130-131
Why circulatory collapse in this AIDS patient? 9/15:166-171
HIV+ with three days of cough. 9/15:171-172
Dementia following prostate resection. 10/15:168
Diarrhea: Few symptoms, many potential causes. 11/15:208-210
Murmurs, malaise, and maculae. 11/30:83
A pruritic rash on a traveler's feet. 12/15:140-142
Infectious diseases
Today's outlook in atypical pneumonia. 1/30:83-95
Asymptomatic bacteriuria: When to worry. 2/15:63-88
Staying on top of hospital infections. 2/15:116-145
Office infection control, OSHA, and you. 3/30:117-134
Recognizing pelvic inflammatory disease. 6/15:186-204
When to switch from IV to oral antibiotics. 8/15:113-125
Syphilis: Are you missing it? 10/15:12 -155

L

Laboratory testing
How to handle baffling test results. 5/30:63-76
Letters
MVP: Who needs prophylaxis? 1/15:21
Discomfort with testicular self-exam. 1/15:21-24
Intermittent neuropathy in disk herniation? 1/15:24-27
Bioelectrical impedance units in obesity Mx. 1/15:27
Helping patients talk about sex. 1/15:27
Patient-controlled analgesia dosage. 1/15:27
Can phone care ever be good care? 1/30:8
More, smaller meals for obese patients. 1/30:8
Placing sexual function in perspective. 1/30:8
Simethicone drops for colicky newborns. 1/30:8
Nasopharyngoscopy in primary care. 2/15:12
Prostate screening? A resounding Yes. 2/15:12
Vaginitis: Complicated by CLIA? 2/15:12-13
Real world medicine: A clarification. 2/15:13
Cost too high for saving a spleen? 3/15:8-17
Pneumonia: Follow-up chest films for all? 3/15:8
Don't forget homosexual teens. 3/15:17
Credit where it's due. 3/30:12
Nasal irritation when driving. 3/30:12
Acute back pain that doesn't fit the pattern. 4/15:17-18
Avoid warfarin in pregnancy? 4/15:17
Buspirone for the stressed patient. 4/15:18
More than a boxer's fracture? 4/15:18-19
Radiologists' role in pneumonia. 4/15:18
Switching from IV to oral antibiotics. 4/15:18
Who pays for clinical trials? 4/15:20
Sonogram for anuria or oliguria. 4/30:8
Test kits for monitoring LH surge. 4/30:8
Anorectics rarely need forced-feeding. 5/30:17
Hypnosis for the terminally ill. 5/30:17
Wanted: Another approach to back pain. 5/30:17
International standards for warfarin monitoring. 6/15:14
Preop testing: Often too much? 6/15:14-17
The high cost of quitting. 6/15:14
Minimum weight for anorectics. 6/15:17
Nosocomial infections in the elderly. 6/15:17-18
Detecting the symptom amplifier. 6/15:18
Doctor means teacher. 6/15:18
Cross-cultural interviewing. 7/15:8-11
Getting used to the Bethesda System. 7/15:8
Needed: Aggressive antismoking tactics. 7/15:11
The power of tumor markers. 7/15:11
Guns: A major public health problem. 8/15:14-15
When to do preop stress testing. 8/15:14
Can milk contribute to osteoporosis? 8/15:15
Depressed kids need more than drugs. 8/15:15
Who's able to do nerve conduction studies? 10/15:16
Addressing anorexia's mind-body dichotomy. 10/15:16-20
Sorting out test results. 10/15:20
Forced-feedings in refractory anorexia. 10/15:20
Chloramphenicol: A topical danger? 10/15:22
How to prevent elderly self-neglect. 10/30:10
Hypertension Rx: Don't forget reserpine. 10/30:10
No Gram stains under CLIA? 10/30:10
Practical pointers on abdominal pain. 10/30:10
A new pediatric heatstroke syndrome. 10/30:12-14
Detecting infected joints. 11/30:8
Can finasteride preclude TURP? 12/15:17
Setting the record straight. 12/15:17
When to measure bone density. 12/15:20

N

Nursing homes
Keep nursing home residents out of the hospital. 10/15:101-125
Acute care in the nursing home. 11/30:59-68

O

Orthotic devices
Foot orthoses: For your patients? 7/15:87-106
Osteoporosis
A real-world approach to osteoporosis. 4/30:31-56

P

Patient information
Ovarian cysts: Every woman has them. 1/15:74
Tips on using home exercise equipment. 2/28:123-124
Things you can do to keep your heart healthy. 3/15:74-77
Help with healthful eating: The food pyramid and other sources. 3/15:190-194
Your pregnancy: Some everyday concerns. 3/30:108
How to prevent pressure ulcers. 4/15:65-66
How your primary care doctor can help during pregnancy. 4/15:93
Avoiding hand and wrist problems on the job. 4/15:129-135
Facts about carpal tunnel syndrome. 4/15:136-138
Preventing heatstroke. 5/15:67
Coaches' guidelines for preventing heatstroke. 5/15:71
Bringing pinkeye under control. 5/30:47-48
What benign prostatic hyperplasia means to you. 7/15:37-40
How to get your boyfriend to use condoms: Advice for teenage girls. 9/15:148-151
Violence shouldn't be part of your life. 11/15:96-101

Getting enough fiber in your diet. 11/30:53-56
Coping with stress. 12/15:91-92
Pediatrics
Oral rehydration therapy in children. 4/30:59-62
Managing depression in children. 5/30:51-60
Physician-patient relations
The medical interview across cultures. 4/15:141-166
Caring for women: Is it different? 11/15:183-199
A guide to women's health resources. 11/15:200-207
Practical Briefings
Mitral regurgitation in acute MI: Don't ignore it. 1/15:28-29
Adenosine in emergency arrhythmia diagnosis. 1/15:29-30
Gallbladder surgery: A new standard? 1/30:11
Major agreement on breast conservation. 2/15:17-18
Inhaled corticosteroids in childhood asthma. 2/15:18-21
New guidelines for treating adolescents. 2/28:8-11
Vitamins, trace elements, and immunologic youth? 3/15:21-22
Aspirin for stable chronic angina. 3/15:22-24
AIDS prevention in at-risk populations. 3/30:14
The JNC-V hypertension recommendations. 4/15:25-32
Pediatric poisonings: Some hazardous surprises. 4/30:9-10
Asthma in the ED: MDIs are faster. 5/15:18
New diagnostic criteria for rheumatic fever. 5/30:18-20
Surgical backup still required for angioplasty. 6/15:20-23
Angioplasty riskier—but still valuable—in women. 7/15:12
Rheumatic fever prophylaxis: When to quit. 8/15:16
HIV targets young adults. 9/15:14-16
AIDS research: Out of the hospital. 9/30:23
After the Diabetes Trial: What next? 10/15:29
The impact of weight loss on blood pressure. 10/30:16
Cosmetic implants: What price esthetics? 11/15:15-16
Ultrasound in pregnancy: New studies, old policy. 11/30:11
Clinical trials: Read them, heed them. 12/15:23
Pregnancy
When the pregnant patient gets sick. 3/30:89-108
Medical illness, safe pregnancy. 4/15:69-93
Cardiac and respiratory drugs in pregnancy. 10/15:53-66
Drugs in pregnancy: Epilepsy, cancer, and more. 10/30:79-89
Antibiotics, analgesics, arthritis drugs in pregnancy. 11/30:71-82
Preoperative care
The preop evaluation: How much is enough? 2/15:149-171
Prevention
What to include in the evaluation. 2/28:14-28
Whose guidelines should you use? 2/28:34-47
New issues, new risks in screening women. 2/28:48-55
Putting screening into practice. 2/28:56-58
Breast and cervical cancer in low-income patients. 2/28:61-67
Preexercise screening: Who needs it? Who doesn't? 2/28:92-103
The nuts and bolts of risk-factor control. 3/15:34-41
Is your patient a walking time bomb? 3/15:42-57
Moving from prevention to detection. 3/15:58-63
Risk prediction charts for CHD and stroke. 3/15:64-68
A guide to in-office testing. 3/15:78-81
Tips on getting paid for counseling. 3/15:120-123
Teach families to be Heart Smart. 6/15:135-145
More reasons than ever for HRT. 11/15:103-132
Psychiatry
Managing somatization and hypochondriasis. 1/30:31-44
Somatization: A challenge, not a chore. 3/30:12
Anorexia and bulimia: You can help. 3/30:24-52
Psychiatric disorders in the elderly. 7/15:111-134

R
Relaxation therapy
Relaxation and other alternative therapies. 12/15:75-90
Renal failure
Slowing the progress of renal failure. 12/15:102-121

S
Smoking cessation
Is the nicotine patch the answer? 2/28:68-79
Consumer advocacy: A crafty approach to counseling. 2/28:80-83
Passive smoke provides another reason to quit. 2/28:84-91

T
Terminal care
Symptom management in the terminally ill. 1/15:33-48

U
Urogenital diseases
New options in urology. 1/30:12-27
Finasteride and other options for BPH. 7/15:14-34

W
Wounds, gunshot
Gunshot wounds: A head-to-toe approach. 5/15:144-173

CONSULTANT AND CONTRIBUTOR INDEX

A
Abraham SA: The preop evaluation: How much is enough? 2/15:149-171
Akbari A: HIV+ with three days of cough. 9/15:171-172 (C)
Allen B: HIV therapy: More choices, more questions. 9/15:65-91
Allen D: Caring for women: Is it different? 11/15:183-199
Ambrose JA: Chest pain: The first six hours. 5/15:24-51
Amsterdam EA: The nuts and bolts of risk-factor control. 3/15:34-41
Moving from prevention to detection. 3/15:58-63
Risk prediction charts for CHD and stroke. 3/15:64-68
Women and heart disease. 3/15:71-73
What's unique about CHD in women? 11/15:21-61
Anderson S: Slowing the progress of renal failure. 12/15:102-121
Andriole GL Jr: New options in urology. 1/30:12-27
Anetzberger GJ: Elder mistreatment: A call for help. 6/15:93-130
Artal R: When the pregnant patient gets sick. 3/30:89-108
Auerbach PS: Heatstroke: Be ready for summer. 5/15:52-62

B
Baer DM: A guide to in-office testing. 3/15:78-81
Equipment choices. 3/15:82-95
Controlling preanalytic factors. 3/15:96-101
Baillie EE: A guide to in-office testing. 3/15:78-81
Equipment choices. 3/15:82-95
Controlling preanalytic factors. 3/15:96-101
Bajwa M: Why circulatory collapse in this AIDS patient? 9/15:166-171 (C)
Ballow CH: The new macrolides: Beyond erythromycin. 12/15:125-136
Barber HRK: A rational approach to ovarian masses. 1/15:50-74
Bast R: Clinical applications of tumor markers. 3/30:61-85
Bates JH: Today's outlook in atypical pneumonia. 1/30:83-95
Baughman KL: Heart surgery: Primary care follow-up. 1/15:95-134
Bayasi M: Fever, chills, and aches in a traveler. 5/30:88-90 (C)
Bazzi MN: Radiating lower abdominal pain. 1/15:185-200 (C)
Fever, chills, and aches in a traveler. 5/30:88-90 (C)
HIV+ with three days of cough. 9/15:171-172 (C)
Ben-Menachem Y: Gunshot wounds: A head-to-toe approach. 5/15:144-173
Benjamin SB: Whose guidelines should you use? 2/28:34-47
Benson H: Relaxation and other alternative therapies. 12/15:75-90
Berenson GS: Teach families to be Heart Smart. 6/15:135-145
Bernstein LH: Portable medicine pumps in primary care. 2/15:91-115
Billotti JD: Fast splinting techniques for fractures. 6/15:148-180
Birnbaumer DM: Abdominal pain: Triaging the elderly. 5/15:72-99
Blaese RM: Gene therapy: Sci-fi no longer. 6/15:24-42
Blum A: Consumer advocacy: A crafty approach to counseling. 2/28:80-83
Bolan G: Syphilis: Are you missing it? 10/15:126-155
Bourne R: When you suspect child abuse. 2/15:22-54
Braun JF: A guide to underground AIDS therapies. 8/15:53-70
Brink SJ: Portable medicine pumps in primary care. 2/15:91-115
Brooks SL: Streamlining the dementia workup. 3/30:12
Buchwald D: The medical interview across cultures. 4/15:141-166
Buckley FP: Symptom management in the terminally ill. 1/15:33-48
Buel SM: Domestic violence: It can happen to anyone. 11/15:63-95
Burchard LL: Tips on getting paid for counseling. 3/15:120-123
How to find time for counseling. 3/15:126-133
Behavior change: How to get patients involved. 3/15:134-139
A marketing plan for patient education and counseling. 3/15:143-144

Burton DR: Recombinant drugs: A promise realized. 8/15:99-109
Bush TL: More reasons than ever for HRT. 11/15:103-132

C

Cadieux RJ: Psychiatric disorders in the elderly. 7/15:111-134
Calciano RF: Finasteride and other options for BPH. 7/15:14-34
Candib LM: Domestic violence: It can happen to anyone. 11/15: 83-95
Caralis PV: The medical interview across cultures. 4/15:141-166
Carr BR: A real-world approach to osteoporosis. 4/30:31-56
Carr SR: Medical illness, safe pregnancy. 4/15:69-93
Casto CE: Somatization: A challenge, not a chore. 3/30:12
Chadwick DL: When you suspect child abuse. 2/15:22-54
Chapman SW: The new macrolides: Beyond erythromycin. 12/15: 125-136
Cheitlin MD: Beta-blockers: When, which one, and why. 8/15:21-48
Chessin LN: When to switch from IV to oral antibiotics. 8/15:113-125
Childs SJ: Asymptomatic bacteriuria: When to worry. 2/15:63-88
Chillag SA: Nasal irritation when driving. 3/30:12
Church DL: Diarrhea in an HIV-positive patient. 1/30:96-99 (C)
Dealing with diarrhea in HIV disease. 9/30:49-74
Clark R: HIV: What's different for women? 9/15:119-147
Clement MJ: HIV disease: Are we going anywhere? 9/15:13 (E)
Cody RJ: Managing angina and concomitant disease. 7/15:45-72
Coleman R: Avoiding drug interactions in HIV disease. 9/15:152-165
Connor WE: Philosophies of cholesterol testing. 1/30:53-68
Conti CR: Managing angina and concomitant disease. 7/15:45-72
Costanza ME: Whose guidelines should you use? 2/28:34-47
New issues, new risks in screening women. 2/28:48-55
Creasman WT: A rational approach to ovarian masses. 1/15:50-74

D

Daar ES: The spectrum of HIV infections. 9/30:99-128
Daroff RB: Beta-blockers: Beyond cardiology. 6/15:47-70
